

Elite Kitchens

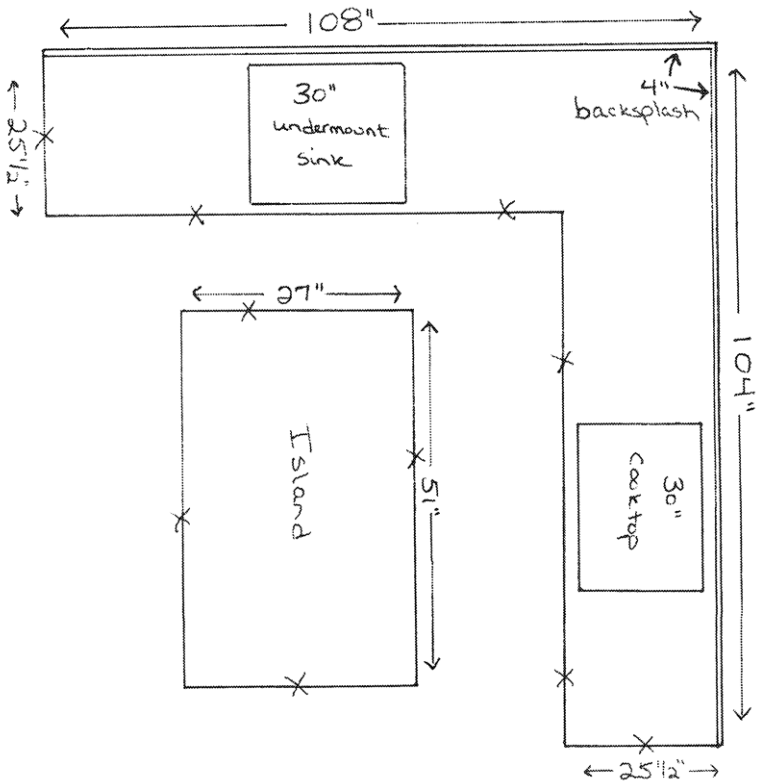

Measuring Your Countertop

Step 1 Make a sketch of your counter. All kitchens are different, so include your island, bar, desk area, etc.

Step 2 Measure length and width in inches. Indicate locations and height of your backsplash. Measure and mark the general location of your sink, cooktop, and other cut-outs. (**Actual placement will be confirmed when template is made.**)

Step 3 Bring your sketch with you. Based on your information and choice of countertop, we will provide an estimate. Your final countertop pricing will be confirmed when a field measurement and template is completed.

Here's a sample sketch:
Note: "X" indicates finished edges.
