## Cup Hinge Soft Close On/Off

The Soft Close can be deactivated on the hinges. Soft Close comes in the activated position, marked with an "I". The deactivated position is marked with an "O".

Door must be closed once for the deactivation to be complete. To reactivate, move switch back to the original position.

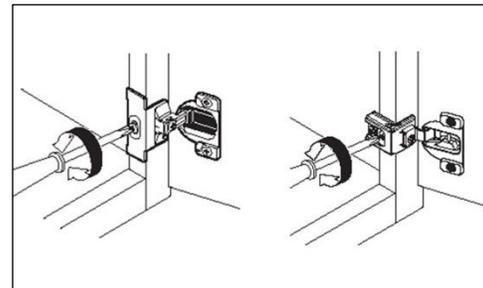

### Cam Side Adjustment:

Rotate screw counter-clockwise to increase door overlay, clockwise to decrease.

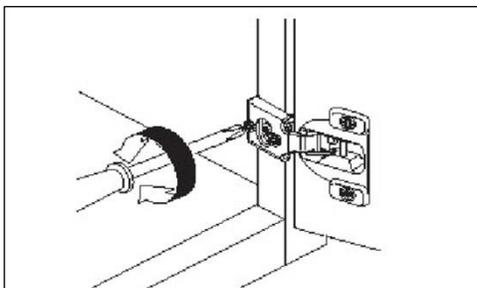

### Height Adjustment:

Loosen center screw, adjust door position and tighten screw.

### Cam Depth Adjustment:

Rotate back screw to counter-clockwise to increase door gap, clockwise to decrease.

## Inset Cup Hinge:

### *Cam Side Adjustment:*

Rotate front screw clockwise to increase door gap between Butt doors, counter-clockwise to decrease.

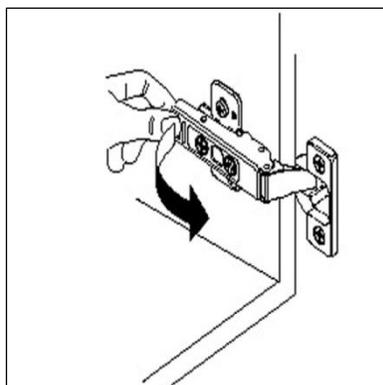

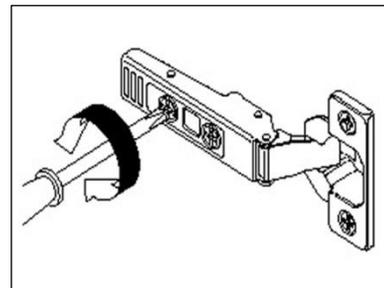

### *Height Adjustment:*

Loosen screw.  
Adjust door to position and tighten screw.

### *Cam Depth Adjustment:*

Rotate rear cam screw counter-clockwise to increase door gap, clockwise to decrease.

### **Door Removal & Install:**

Release the lever under the hinge arm to remove.  
To reinstall, place hinge on the mounting plate and push back with finger pressure. The “click” sound confirms secure attachment.

### *Height Adjustment:*

1. Press up on adjustment tab
2. Push towards back of drawer to raise
3. Push towards front of drawer to lower

Max (1/8") rise of drawer.

### *Tilt Adjustment:*

Rotate the tilt adjustment lever on the rear of each runner profile to tilt the top of the drawer front forward or back.

### **Drawer Adjustments:**

#### *If drawer front appears crooked:*

Measure at each end to see if height is the same. If not, slightly loosen the screws attaching the drawer front to the drawer box. Adjust up, down or sideways, then tighten screws.

#### *If drawer does not close evenly:*

Adjust the drawer guide attached to the cabinet by manually realigning the back of the guide.
